Outside the Fold The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldivian Islands. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.

Healing in the History of Christianity This Volume, The First To Appear In The Ten Volume Series Published By The Sahitya Akademi, Deals With A Fascinating Period, Conspicuous By The Growing Complexities Of Multilingualism, Changes In The Modes Of Literary Transmission And In The Readership And Also By The Dominance Of The English Language As An Instrument Of Power In Indian Society.

ND/ NA 11 Year-wise Solved Papers (2020 - 15) Phase I & II Exams 2nd Edition Amanda Porterfield offers a survey of ideas, rituals, and experiences of healing in Christian history. Jesus himself performed many miracles of healing, and Christians down the ages have seen this as a prominent feature of their faith. Indeed, healing is one of the most constant themes in the long and sprawling history of Christianity. Changes in healing beliefs and practices offer a window into changes in religious authority, church structure, and ideas about sanctity, history, resurrection, and the kingdom of God. Porterfield chronicles these changes, at the same time shedding important new light on the universality of religious healing. Finally, she looks at recent scientific findings about religion’s biological effects, and considers the relation of these findings to ages-old traditions about belief and healing.

History of Indian Literature

Subject Catalog

War, Culture and Society in Early Modern South Asia, 1740-1849 In thirteenth-century Maharashtra, a new vernacular literature emerged to challenge the hegemony of Sanskrit, a language largely restricted to men of high caste. In a vivid and accessible idiom, this new Marathi literature inaugurated a public debate over the ethics of social difference grounded in the idiom of everyday life. The arguments of vernacular intellectuals pushed the question of social inclusion into ever-wider social realms, spearheading the development of a nascent premodern public sphere that valorized the quotidian world in sociopolitical terms. The Quotidian Revolution examines this pivotal moment of vernacularization in Indian literature, religion, and public life by investigating courtly donative Marathi inscriptions alongside the first extant texts of Marathi literature: the Lilacaritra (1278) and the Jñanesvari (1290). Novetzke revisits the influence of Chakradhar (c. 1194), the founder of the Mahanubhav religion, and Jnandev (c. 1271), who became a major figure of the Varkari religion, to observe how these avant-garde and worldly elites pursued a radical intervention into the social questions and ethics of the age. Drawing on political anthropology and contemporary theories of social justice, religion, and the public sphere, The Quotidian Revolution explores the specific circumstances of this new discourse oriented around everyday life and its
lastling legacy: widening the space of public debate in a way that presages key aspects of Indian modernity and democracy.

THE INDIAN LISTENER

Indian History Outside the Fold is a radical reexamination of religious conversion. Gauri Viswanathan skillfully argues that conversion is an interpretive act that belongs in the realm of cultural criticism. To that end, this work examines key moments in colonial and postcolonial history to show how conversion questions the limitations of secular ideologies, particularly the discourse of rights central to both the British empire and the British nation-state. Implicit in such questioning is an attempt to construct an alternative epistemological and ethical foundation of national community. Viswanathan grounds her study in an examination of two simultaneous and, she asserts, linked events: the legal emancipation of religious minorities in England and the acculturation of colonial subjects to British rule. The author views these two apparently disparate events as part of a common pattern of national consolidation that produced the English state. She seeks to explain why resistance, in both cases, frequently took the form of religious conversion, especially to “minority” or alternative religions. Confronting the general characterization of conversion as assimilative and annihilating of identity, Viswanathan demonstrates that a willful change of religion can be seen instead as an act of opposition. Outside the Fold concludes that, as a form of cultural crossing, conversion comes to represent a vital release into difference. Through the figure of the convert, Viswanathan addresses the vexing question of the role of belief and minority discourse in modern society. She establishes new points of contact between the convert as religious dissector and as colonial subject. This convergence provides a transcultural perspective not otherwise visible in literary and historical texts. It allows for radically new readings of significant figures as diverse as John Henry Newman, Pandita Ramabai, Annie Besant, and B. R. Ambedkar, as well as close studies of court cases, census reports, and popular English fiction. These varying texts illuminate the means by which discourses of religious identity are produced, contained, or opposed by the languages of law, reason, and classificatory knowledge. Outside the Fold is a challenging, provocative contribution to the multidisciplinary field of cultural studies.
